WHEREAS it is necessary and expedient to establish a by-law for the prevention of fire, and for the regulation of chimneys, flues and stove-pipes in the Municipality :

Be it therefore enacted by the Reeve and Council of the Corporation of Delta as follows :—

From and after the passing of this by-law it shall be lawful for the Reeve for the time being to appoint a Fire Committee at the same time as other Committees are appointed, and the retiring Committee shall continue to act until their successors are appointed.

I. It shall not be lawful for any person owning and occupying any house or building situate within one hundred (100) feet, or less, of any other building to have a stove-pipe running through the roof of said building, but shall be compelled to build, or cause to be built, a brick chimney or flue through said roof for the better protection from fire.

II. Upon the complaint of any person in writing to the Council that any stove-pipe in any building is considered unsafe, it shall be the duty of the Fire Committee to examine the premises complained of, and if, in their opinion, said stove-pipe is considered unsafe, they shall have power to order such stove-pipe taken down and proper precautions taken to lessen the risks from fire.

III. No stove-pipe, or pipe of metal for conveying fire, shall be fixed nearer than 12 inches to the surface of any timber, or no such stove-pipe or pipe of metal shall pass through any timber, framing or partition of wood or lath and plaster, or through any wooden floor, unless it be encircled by a rim of solid stone, brick or terra cotta or metal not less than three inches wide, and equal in thickness to the full finished thickness of the framing through which it passes.

IV. No person shall set or place any stove, furnace, range or vessel in which fire may be kept in such a manner that the back thereof be less than 16 inches from any wood-work, unless such wood-work is protected by metal, and in that case not less than 12 inches, and all stove-pipes used shall lead into a brick chimney or flue, which chimney or flue shall be built and constructed according to and subject to the control of the Fire Committee.

V. Every occupant of any building shall keep all pipe-holes in said chimney or flues closed by a proper stopper when not in use, and no occupant of any building shall permit any chimney or flue to become unclean or take fire.

VI. It shall not be lawful for any person to deposit any ashes or cause the same to be deposited or placed within 10 feet of any building, whether occupied by himself or any other person.

VII. No person shall without reasonable excuse make or circulate, or cause to be made or circulated, any false alarm of fire by outcry, ringing of bells or otherwise.

VIII. Any person convicted of a breach of this by-law shall forfeit and pay, at the discretion of the convicting Magistrate or Magistrates, a sum not to exceed twenty (20) dollars, and the Magistrate or Magistrates may order the offender to remove and take down any stove-pipe erected contrary to the provisions of this by-law within a time to be limited by the order, at the expense of the offender, or in the event of the offender not carrying out said order the Fire Committee shall have full powers to take down and remove such stove-pipe, or to take such means as may be necessary to carry out the requirements of this section, and the expenses thereof, together with costs, may be recovered by action or distress, and in case of non-payment thereof the same may be recovered in like manner as municipal taxes.
